CORE COMPUTING CURRICULUM

The core computing curriculum involves pupils working independently to complete the Bronze and Silver Inspiring Digital Enterprise Award, known as iDEA.

Pupils develop digital, enterprise and employability skills through completing badges, to gain this industry-recognised Award.

Year 10 – Approx 12 Periods – BRONZE AWARD

Pupils complete the Bronze Award, choosing their own pathway from 5 sections to gain accreditation.

Pupils gain a certificate and a Record of Achievement to showcase knowledge, understanding and digital literacy skills.

Year 11 - Approx 8 Periods – SILVER AWARD

Pupils develop their digital literacy skills further by independently completing 4 out of 5 areas of study in the following sections. Pupils choose their own pathway through the award.

A record of achievement is available for completed tasks that pupils are encouraged to use for college applications.

Pupils have access to the learning materials online.
